

Together we are **one** powerful EMC solution

A complete one-stop provider for all your EMC needs

MVG, a world leader in anechoic and shielded chamber solutions and **AR**, the RF/Microwave Instrumentation powerhouse have teamed up to provide exceptional turnkey solutions for your most demanding EMC requirements.

MVG, an EMC specialist for over 27 years, designs some of the world's leading standard and custom configuration chambers for a wide range of aerospace, defense, electronics, automotive and telecom applications. This combined with **AR's** 45 years of EMC product development, results in one powerful EMC solution.
